USAVS2-4-1500

Portable articulating videoscope with its own internal lightsource, video recording, picture taking, and SD card storage. This unit features tungsten sheathing as found in many other higher end videoscope systems. The image quality provides an improvement over flexible fiberscopes which typically will feature between 9,000-15,000 pixels. This unit is a basic system to allow for a low cost inspection option.

Features:

- ▶ 4mm Diameter
- ▶ 1.5m Length
- ▶ 2-Way Articulation
(4-Way Articulation available)
- ▶ 4.3" Screen
- ▶ SD Card Storage
- ▶ Rechargeable Battery
- ▶ LED Lightsource
- ▶ Tungsten Sheathing
- ▶ Stainless Steel Camera Housing
- ▶ IP58 Waterproof
